DETAILED ACTION

1. Applicant's response and amendments received April 6, 2010 are acknowledged.

Claims 64, 65, and 75 have been amended.

Claims 51, 58-60, 64-68, and 70-78 are pending in the instant application.

Information Disclosure Statement

2. The IDS received April 6, 2010 is acknowledged and has been considered.

3. Note that applicant's response was received two days prior to the notice of allowability mailed April 8, 2010. Since applicant's response and claim amendments were received prior to the notice of allowance being mailed, applicant's claim amendments and IDS received April 6, 2010 have been entered as a matter of right. It appears that the instant error arose due to the lag time between an office action being submitted for mailing and the time when said action is actually mailed. Given that mailing of the notice of allowability had not yet occurred when applicant filed the April 6, 2010 response, applicant's response was timely filed and thus there is no need for applicant to file an amendment under 37 CFR 312. The newly cited IDS documents do not question the validity of the instant claimed invention, and the claim amendments to claims 64, 65, and 75 correct minor grammatical inconsistencies. Specifically, claims 64 and 65 have been amended to delete the unnecessary word "side" and claim 75 has been amended to include an extra space to aid with readability of the claim. None of these amendments alter what has been claimed, require additional search or consideration, or raise new issues concerning patentability. As such all claims are allowable. Note that the text of the allowed claims is that of the most recently received claim set, namely the claims received April 6, 2010.

4. Claims 51, 58-60, 64-68, and 70-78 are allowed.

Art Unit: 1644
